

We are looking for a motivated Software Development Intern to join our engineering team and contribute to the development, testing, and maintenance of software applications.

The candidate should have good knowledge of programming languages such as Java, Python, and SQL, along with a strong understanding of Data Structures and Algorithms, Object-Oriented Programming, and DBMS.

Familiarity with Git, REST APIs, and Docker is preferred.

The candidate should have strong problem-solving and logical reasoning skills and be willing to work collaboratively in an Agile development environment.

A B.Tech/B.E. degree in Computer Science, Information Technology, or a related field is preferred.

Experience required: 0 to 1 years.
